

Space Brothers ET Contacts
September 2024

1.)**Rom Bowtie**. 6'2". Short blonde wavy hair. Black eyes 2x size of humans. Daughter name is Trix "My Heart". Son's name is "Gule" and means "Love & Light" Squids 1st telepathic contact **12-5-2007**. Started out as a Captain. 1st Mated was **Sara**. Trix and Gule born from this union with Sara. Rom is from Venus. All their needs are provided for and they don't have marriage. All their technology is thought based. If they need a pair of shoes they just create it out of nowhere using their technology. Rom is what we call a Nordic ET. I Met his Kids on **3-1-2008**. Rom's family has this "Plant-Animal Pet" they call "Flop" and it plays these telepathic mind games with them. For most Space Brothers sex comes through their hands. They don't climax physically, but like humans they climax emotionally. I don't understand the process but I have experienced it. It is vastly greater in intimacy than human sex. Somehow Rom is an uncle and cousin to Marble or **MoBoo**. Example: Maybe Rom's Brother Jerry mated with their dad's sister?? I don't know. Rom has had three mating's before Sara. Rom is 103 years old. Rom started studying me in 1967 @ age 15. Since our first contact Rom has left Sara. He Dated **Mary** then mated with **Sherry**. This union produced "**Jeffy John**" who is named after me. Then Rom mated with **Susan** who reports on my spiritual development to the Space Brothers and the Masters of Wisdom. Susan and Rom have a child which they named after me -**Alfie John**. This is not to be confused with Undal and I son "**Alfie John Martin**". Rom and Susan currently prefer using our human sex style which they adopted from my family practice. **Trix & Gule** (Rom & Sara's Kids) were 1st stationed on the moon after graduation. Rom & Sherry's son "**Jeffy John**" born August 1st 2014. At first Rom & Sherry were going to call him "Alfie" in honor of me but changed it at the last minute to **Jeffy John**. They choose to keep the "John" part as his middle name. I am his Godfather.

2.)**Bowllock**. He has big head and bright orange skin with a black "SS Nazi" type pattern all over his body. He is from Jupiter. Bowllock eats minerals. His wife is dead. Their Daughter is on Saturn. His son in the Space Brother's task force. Besides teaching school Bowllock collects & processing data. It is my understanding that their educational system has 7 levels. The 7th level is like an earth bachelor degree. The 8th level is like earth's masters degree with the 9th level being their Doctors degree. The kids spend two hours a day in "*Learning Tubes*" which test & train the students in a huge variety of disciplines. The education of children begins in their mother's womb at the moment of conception. Most of my kids were born with a 6 or 7 year psychological emotional level. But intellectually they were functioning well beyond anything I could grasp. Most of my kids only sleep 2 hours every day. Their lives are very structured between work, study and play. The kids do their homework during their sleep cycles. Bowllock 7 foot 3 inches. Bowllock was an early teacher for my space kids. All things equal, It takes about three earth years for my children to reach 21. At birth all the infant's needs are met by way of A.I. technology and the Greys. Most of my kids were only breastfed for 2 weeks. Please note that my observations only apply to the Space Brother's Ranks. In the home worlds of our solar system the civilian educational system may be different. Bowllock is a commander in the Space Brothers.

3.)**Buzz**. He is an insect-human ET. His race comes from both inside and outside our solar system. Buzz has three kids staying on Neptune. He has wrinkly skin like an elephant and is 320 years old. Buzz doesn't like Mars. He says it is too peaceful. One of his kids is called **Iris** and she is a daughter. Buzz has a life cycle of 700-800 years. His mate has moved on and they have split up. Buzz has 5 years left on the earth tour then he will start a new tour somewhere. There is this lake in Switzerland he likes to land a lot. He likes to watch earth movies and read. He is Photo-op Ham! His was currently on temporary assignment outside solar system which ended July 2013.

4.)**Jerry the ET.** Command and control job. Gets resources to where the UFOs are needed or working. Jerry works with about 25 other ships or ET crews. Rom's Brother. Jerry is from Venus.

5.)**Jeff Regis.** Human ET. Curly dark hair. Mustache. Works South America a lot. I've posted some photos of him online.

8.)**Shanna Martin** was a female Lieutenant in the Space Brothers. Now Promoted to Captain. When I first met her she was a Sargent. Her dad was Hybrid and his name was **Block**. He was from Mars and just recently died. Shanna's mom is from Venus. Her Mom works with plants & animals. They met on a gardening expedition. Shanna has 12 brothers and sisters. I was ask to join the **Breeding Program** as her mate on **3-11-2013**. I had an earlier unknown contact with her on **10-4-2012** when she challenged me to a game of "*space tag*". Space tag is a game I created with the ETs wherein I can move my body in six ways: Left, Right, Forward, backward, Up or down. I give them a count of three then I move. They in turn move the UFO craft in sync. If they get their first they win. If they match me we tie. If I fake them into moving the wrong way, I win. The key to beating them is to think three or four thoughts at the same time. They love this game! They go nuts whenever we play it. The best out of three wins the game. All the girls have perfect Vogue Magazine bodies. All of them are knock outs. Shanna has Golden-blue eyes. She used to wear her hair in a 1920's Black hair Flapper girl cut. Currently, letting her hair grow long. She has Olive Italian skin, high cheekbones is 5'9" & is 140 earth years old. She started **studying me in 2008**. It seems that Mars has not had as many wars as earth and is about 3000 years more advanced in their culture. She has mated before. She has 3 kids by **2 other ET males**. **Clark** is the oldest. He is 60 earth years old. Clark does research mostly outside our solar system. The other two (**Sybli & Iris**) are currently working on the moon. She has 24/7 contact with all her kids. Her birth cycle is 6 months and machines and greys tend to all the infants' needs. Mars does not have marriage. In her culture, all their needs are met. Shanna's mom had 9 kids by one male & 3 kids by another male. Shanna was a 1.5 initiate. **William** is our 1st hybrid son. **William John Martin** our son was born on November 23rd 2013 @ 12:05 PM. **Lo Lo Martin** was born on December 11th 2014. 9.) **Mer.** ET from Mars. It is my understanding that on Mars there are 3 classes: 1.)The Gods or the Martian masters of wisdom, 2.) The Space Brother and those who are allowed to fly UFOs to other worlds; and 3.) The civilians who prefer to stay at home and who are not in the Space brothers. These are not allowed to fly UFOs. They are the lowest class and mostly live and work on Mars. This lowest class builds UFOs for the rest of our solar system. "MER" is from this lower class. Rom is training Mer. Mer has web-like hands and Octopus-like shaped head. Rom refers to his class as "Bi-humans" And uses the nickname "Thin Skulls". Mer is a fast learner. "Bi-humans" all wear a helmet like headgear for protection. Mer's grasp is like an octopus tentacle which he wrapped around my hand. He is almost boneless. Mer's spiritual development is an exception for his class. This is why he made the team. Mer is humanoid. He has 2 arms, 2 legs and a head. Mer is Bipedal.

10.)**Ohm**. Energy ET in 3 parts.

11.)**Isa (or Izzy) Martin** was 36 years old when we mated. She now is a Captain. She is from Venus. She is 5 foot 6 inch tall with Long Black hair and Brown Eyes. She reminds me of "Kate Jackson" from the America 1970's TV show Charlie's Angels. She has Two belly buttons and her birth cycle is 7 to 8 months. Izzy has an Older brother on Saturn. When Barda's mom and dad were killed in an accident on Mars Izzy stepped in as Barda's Mother and raised her. Her main job is record keeping. White skin. **Matrice John Martin** son of Izzy was born 6-23-2016 @ 2:31 AM. Blond Hair. Blue eyes. White/Grey skin. Izzy has one older brother. **Al Jr. Martin or Big Al Martin** is our son. He has Red Hair. Blue Eyes. White Skin. Now with child: **Julie-Robin**. Will update.

12.)**Bark** is a 2 foot tall Mars/Jupiter hybrid. He is around 35? 34? 24? Earth years old? He was assigned to me as my personal security officer for a while due to non-lethal attacks from the black hats. His job was to make sure no unauthorized risks to my safety from other interested parties occurs. This is stipulated by treaty. Contact with "non-spiritual beings" is tightly controlled by the Human & Space Brothers Hierarchies. Bark and his ET staff monitor and enforce all treaty commitments. In short, Bark guards my home at night and is my security chief. Bark's life cycle is around 400 earth years. His Hair is like a Grey rodent. He has been in the space brothers for 2 years. Recently Bark was Replaced by Female ET Arcadian who is 5 foot 4 inches. My children are also now assisting in this task part-time. Bark's old mate was **Cilly**. His new mate is **Bud**. Bark is now on assignment outside of our solar system.

Her dad was a chemist. It is my understanding that her mom & dad died in an accident on Mars and Izzy then raised her. Barda's main job is in the Stock & Inventory room filling requests for supplies. She has two half brothers and two half sisters from her dad's previous mating. Barda has adopted **Jane Anne Martin-Heilbrunn**, my earth daughter and they are currently working on teaching the public about the UFO phenomena by way of YouTube Postings. He has treated me for Post Polio health issues successfully installing etheric devices on my body which have since been removed. Without his help I would be in a wheelchair. He started studying me in 1963 when I was 11 years old and is now retired.

Came out of retirement for new cycle of Kids.

15.)**Undal (or Marble) Martin** is from Mars. She is Rom's cousin and has roundish Black Eyes that are a little large. She is of a Royal Bloodline for this quadrant of the Galaxy. Our Galaxy is divided into 4 quadrants. This goes back millions of years. The ETs sense of royalty is based on education or philosophy. She comes from a long line of wise teachers. Other ETs from our Quadrant for ages have been coming to her kin for wisdom. She looks like a Latino human female except for the eyes. Her hair is black and wiry; kind of like an eastern European female. Undal sometimes likes to keep her hair in semi-dreadlocks. She may be connected to Neptune. Undal is 4 foot 2 inches and has 4 fingers but 5 toes. She also has 2 belly buttons. **Alfie John Martin** is our son. He was born **3-3-2014 @ 5:10AM**. It goes from coal black to light coco with the seasons. She can change her eye color from Violet Blue to Red at will when angry. MoBo was 18 earth years old and just graduated from Cadet training when we mated. She is named after these colored lights that occur on Jupiter from electric discharge between ammonia and methane gases crystals. She stands 4 foot 9 inches? 5ft 10 inches? Her mom & dad live on Jupiter. Dad is an Engineer & mom is a Homemaker. In the beginning Moobo had a hard time understanding human feelings. 18.)**Abena Martin** is from Orion and Venus. When we mated she was Major. Now she is Assistant Overseer for the east coast of the U.S.A. From the Mississippi river to the eastern seaboard. She was 203 earth years old when we mated. She has completed three tours of duty: 40 years on Mars, 20 years on Jupiter, and 10 years on Pluto. It is my understanding that Pluto is a pretty rough place. There seems to be 2 groups who have been at war for around 30,000 years. However there are locations of brotherhood and peace where Pluto's Masters of wisdom dwell. Each planet in our solar system has its own group of Masters of

wisdom. These Masters meet from time to time on the “etheric planet” Vulcan. Think of it as our solar system's United Nations. Vulcan is an etheric planet. It is not solid-physical. Vulcan has been detected as a gravitational anomaly inside our solar system by earth scientists. It is my understanding that some nations on Pluto do possess very limited space travel, but do not have the technology to travel out of orbit so far. Nor are they allowed by the space brothers and others to travel to earth. Any races coming from other galaxies must first check in with Shamballa which is a etheric earth city located somewhere in the Gobi desert. It seems that the earth is now quarantined off due to historical reasons. Abena likes me to call her “B” for short. She has a family on Orion but her home is Venus. She has golden blond-white hair and brown or black eyes. Her Height is around 5 ft 6 inch. Her pregnancy cycle is about 6 or 7 months. **Jack John** and **Sasha Lee Martin** are our twins. **Jack John Martin** was born on **2-6-2014** @ 5:17 AM. He has blond hair, blue eye and white skin. Her two other children from a previous mating are, daughter **“Poll”** & son **“Tie”**. They were schooled on Mars but now are stationed on the space brother's moon base with their dad **“Who”**. Abena & I have a very special bond and I get great comfort when we spend time together. Unfortunately, due to her responsibilities, we are not able to spend as much time together as we would like. “B” has excellent command abilities. I've seen her carry on 50 to 60 conversations at once with her staff. She has 8 brothers and 4 sisters. Abena was the youngest. **Laitha**: Abena's adopted Daughter/Freed Slave from Rigel Reptilians. Freed by Abena **May 15th 2010**. **Abena** with Twins: **Clifford & Teresa**. Will update.

19.)**Heidi Martin** is from Mars/Earth. Creator. Her skin color is Tan. She has blue eyes, blond hair and was 465 earth years old when we mated. She Lives between 900-1200 earth years. She hails north of Boston from a Quaker Presbyterian family. Mom's maiden name was Brown. Her earth stepfather's last name was Jeffers. **Jim** is her **Martian father** (700 years old) and he does construction work for the space brothers. **Margret** is her martian stepmother (900 years old) and she works on propulsion systems. Jim & Margaret are not in the space brothers but work for them. My best guess for Heidi's birth date is around **1549**. She was raised with step brothers and sisters until she was 15 years old, at which time the space brothers came and took her to be with Jim on mars. At 15 they put her solid body in a glass and gold coffin filled with golden fog which keeps it in stasis. The 17 years old physical body can not age when in stasis. She then moved into her etheric body like the rest of the martians' space brothers. The monks at this Tibet monastery recharge the gold fog from time to time to keep her body from aging. It takes about one hour to put a human body in stasis but 20 minutes to come back. If she has to jump back into her solid body she would look 18 or 19 years old. She has jumped back into it a few times already for earth missions. From 15 to 30 years of age Heidi traveled around with her dad to Jupiter, Neptune, Uranus, and Pluto. She also traveled out of the solar system twice on 5 years missions. She joined the space brothers when she turned 30 years old. She has completed 3 tours of duty on Pluto (20 years, 30 years, and 60 years). On the 60 year tour she met Abena. Her birth cycle is 7 to 8 months. Our Twins are: Son **Tommy John Martin** born **August 10th 2015** @ 5:22 PM. Brown hair. Blue eyes. White skin. And daughter **Elizabeth Ann Martin** was born **August 10th 2015** @ 5:23 PM. She has Auburn hair. Brown eyes. White skin. Our son **Grey Martin** was Born **4-25-2017** @ 10:27 AM. with Black hair. Blue eyes. White skin. Our son **Steven John Martin** was born **6-9-2018**. Steven John has red hair, blue eyes and white skin. Heidi looks totally human. She is 6 foot tall and her weight is 160 lbs. She was on Earth in solid physical body form for 6 or 7

months and saw Jimi Hendrix perform at Woodstock. While in solid form she met a dude hitchhiking to Woodstock. At Woodstock she experiment with Peyote & LSD. She fell in love with Tommy but he freaked out and dumped her when strange UFO activity began to happen. This broke her heart because she loved him very much and was deeply hurt. She wanted to breed with him. Barda says that Heidi has no rank. That is, the other girls don't understand her rank or what it is she does. She has worked on earth as an adviser. She says that when you travel to other worlds your body absorbs a bit of their DNA.
